- + The Sani-Safe hands-free sanitiser was developed exclusively for Sía PPE by an engineering company in Northern Ireland.
- + Public health recommendations are for a no touch solution to hand sanitising.

These are some of the questions an organisation should be asking before making a purchasing decision.

	Sani-Safe	Alternative
Does it offer a no hand touch solution?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Does it hold enough capacity to be refilled weekly instead of hourly?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Is it weatherproof?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Does it come with a 3-year warranty?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Can be organisation branded or used to advertise?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Is it made from 316 grade stainless steel?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Is there a model size suitable for infant schools?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Is there a wheelchair access model available?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Does it offer a refill service option vastly reducing the amount of plastic waste going into the environment	<input checked="" type="checkbox"/>	<input type="checkbox"/>

“ A foot-operated or hands-free hand sanitiser is undoubtedly far safer than hand-operated models which should be phased out as soon as possible, given the current ongoing Covid 19 threat”

Dr Mark McClean
General Practitioner, Northern Ireland

Protective safety cover
